

VOLUNTEER ZAMBIA – STUDENT SPORT DEVELOPMENT OFFICER & MEDIA, MARKETING & COMMUNICATIONS OFFICER

2026

BACKGROUND INFORMATION

The Wallace Group is a group of 7 UK Higher Education Institutions that have for the past 19 years shared the commitment to support the development of sport in Zambia working in collaboration with Sport in Action as its principal in-country partner, along with select National Sports Federations in Zambia.

The seven Universities; Cardiff Metropolitan, Durham, Edinburgh, Loughborough, Northumbria, St Andrews, and Stirling have embraced new Directors in this ambition, including UK Sport, England Netball and Sport in Action themselves. Together they work in collaboration and continue their shared commitment to the establishment and sustainable practices of both international and sport development. Each summer the 7 universities of the Wallace Group collaborate to send students and staff members out to Zambia for 8 weeks, from the period of June-October. Working with Sport in Action, the student and staff volunteers collaborate with the in-country Zambian colleagues to deliver embedded and sustainable opportunities for young people across Zambia, particularly women and girls.

Our focus is sport development. This includes, increasing capacity, supporting the development talent pathways, and developing coaching and facilitation practices in the key sports of, netball, basketball & women's football. This is done by working collaboratively with Zambian colleagues. The emphasis is on the above-mentioned areas so that with better sport facilitation, more coherent pathways and higher capacity, more vulnerable individuals will have the ability to access life changing interventions through Sport in Action and In-Country partners and service providers.
